

ORGANIC

Recommendation for use of TwinN for organic crops.

TwinN is widely used in organic production systems around the world where it supplies nitrogen, boosts crop growth and improves soil health. For an example of use of TwinN in organic potato farming refer to Trial results.

TwinN is certified for use in organic systems by regulatory organizations including:

- NASAA
- The Soil Association of the United Kingdom
- The Biological Farmers Association of the United Kingdom
- WSDA in the United States
